EXPERT REPORT OF ROBERT T. BURKS, M.D.

1. I am an orthopaedic surgeon with the University of Utah Orthopaedic Center. My office is at 590 Wakara Way, Salt Lake City, Utah 84108. I have been practicing for more than 23 years.
2. I received my M.D. from St. Louis University in 1974. I completed a residency in Orthopaedics at the University of California at San Diego in 1983. I completed a knee and sports medicine fellowship at Kaiser Permanente Hospital in San Diego in 1983, and sabbatical at Steadman Hawkins in Vail, Colorado in 1995
3. I am a Professor and Mary Scowcroft Peery Presidential Endowed Chair at the University of Utah Health Sciences Center. I am also the Director of Sports Medicine and Head Physician at the University of Utah. My curriculum vitae are attached as Exhibit 1.

4. My specialties include arthroscopy of the shoulder, knee and ankle, and ligament reconstruction. My research interests include patella stability, cartilage defects, tendon healing to bone.

5. I have reviewed Dr. Fenton's report and I understand he may provide testimony on certain subjects including human anatomy, surgical techniques and surgical devices. I may also provide testimony on these same subjects.

6. I may describe the characteristics of a surgical suture that are generally important to an orthopaedic surgeon. I may also describe the specific features of FiberWire that I find beneficial in my practice.

7. I have been using FiberWire suture in my surgical procedures since 2001. Most of my subjective use of FiberWire occurs during surgery and in the surgical environment, FiberWire is generally wet.

8. Sometime in February 2006, I was contacted by attorneys for Arthrex, Inc. and asked to conduct a tactile feel analysis as well as a knot tie-down analysis of coated and uncoated FiberWire suture. I agreed to conduct the analysis.

9. In March 2006, I received two samples of suture labeled "suture A" and "suture B." Each sample was on a spool and was approximately 3 meters in length. I was told by Arthrex's attorneys that one sample was coated US No. 2 FiberWire and that the other sample was uncoated US No. 2 FiberWire, however, I was not told which sample was coated and which was uncoated.

10. I took the sutures and cut them into some lengths that are appropriate for intraoperative tying and for intraoperative knot tying done arthroscopically. This allowed 5 strands from each spool.

11. I conducted a tactile feel analysis of both suture samples ("suture A" and "suture B"). During the analysis, I noticed that the sample labeled "suture A" generally felt smoother than "suture B." The difference between the two samples was even more pronounced when they were wet, which is how I am most accustomed to using FiberWire.

12. I also conducted a knot tie-down analysis on the two suture samples. I tied several surgeons knots and found that the knots slid easier on the sample labeled "suture A" as compared with the sample labeled "suture B." I felt less friction when sliding the knot on the sample labeled "suture A" as compared with the sample labeled "suture B." Here again, the difference between the two samples was most noticeable when they were wet, as I am accustomed to using FiberWire.

13. After conducting my analysis, I was informed that "suture A" was the coated FiberWire and "suture B" was the uncoated FiberWire.

14. If asked to testify at trial, I may use physical exhibits, as well as other demonstrative exhibits, which have not yet been developed.

15. Within the past four years, I have testified as an expert at deposition in connection with one other case: Philip D. Ceriani, M.D. v. Lonnie Paulos, M.D., and Simon Finger, M.D., et al, Case #: 030906702 (Civil 3rd District Court, Salt Lake City).
16. I am being compensated at a rate of \$400 per hour.

Dated: March 24, 2006

Robert T. Burks, M.D.

CERTIFICATE OF SERVICE

I HEREBY CERTIFY that a true and correct copy of the foregoing Expert Report of Robert T. Burks, M.D. was served, via Fedex (Saturday delivery to Ms. Malinoski and regular delivery to Mr. Gleason), along with a courtesy copy of the text of this report (without exhibits), via email, on the following counsel for Plaintiff on the 24th day of

March 2006:
